PROFESSIONAL SUMMARY

Senior UI/UX Designer with 4+ years of experience crafting enterprise platforms, AI-driven products, automotive HMI systems, mobile applications, and scalable SaaS products. Proven ability to transform complex workflows into intuitive, user-centered interfaces with a strong emphasis on usability, interaction design, accessibility (WCAG), and visual clarity. Hands-on experience with AI-assisted design workflows using Claude, Claude Code, OpenAI Codex, and ChatGPT for rapid prototyping, design-to-code execution, and frontend implementation. Adept at cross-functional collaboration, developer handoff, and delivering high-impact digital experiences across healthcare, insurance, automotive, and enterprise ecosystems.

SKILLS

UX & Product Design: User Research | UX Strategy | Wireframing | High-Fidelity UI Design | Interaction Design | Information Architecture | Journey Mapping | Responsive Design | Accessibility (WCAG)

Specializations: Enterprise UX | SaaS Product Design | Dashboard Design | Automotive HMI Design | Mobile App Design | Admin Panel Design

AI & Dev Workflow: Claude / Claude Code | OpenAI Codex | AI-Assisted Frontend Dev | Prompt-Driven UI Development | Design-to-Code Workflow | Vibe Coding | VS Code

Collaboration: Design Systems | Developer Handoff | Cross-Functional Teams | Product Thinking | Prototyping | Usability Testing

Design Tools: Figma | FigJam | Framer | Adobe XD | Adobe Photoshop | Adobe Illustrator

PROFESSIONAL EXPERIENCE

Digital Solution Designer
Divami Design Labs • Hyderabad

Mar 2026 - Present

- Designing end-to-end digital experiences for IIRM, an enterprise insurance platform covering Employee Portal and HR Portal workflows with a strong focus on usability and enterprise UX.

- Translating complex insurance, compliance, and operational requirements into scalable, user-centered dashboard systems.
- Practicing AI-assisted 'vibe coding' workflows using Claude Code directly in Visual Studio Code for faster prototyping and frontend execution.
- Collaborating with product and engineering teams on interaction design, UI refinement, and AI-driven product workflows using Claude and OpenAI Codex.

Senior UI/UX Designer
RADcube • Hyderabad

Jan 2026 - Mar 2026

- Designed Versante AI, a healthcare AI chatbot interface, delivering a conversational UX optimized for clinical contexts and patient engagement.
- Led the UI/UX design of the Global Dashboard Manager, consolidating multi-source data into a unified, actionable enterprise dashboard.
- Spearheaded the complete redesign of the RADcube corporate website, improving brand clarity and lead generation flows.
- Collaborated with cross-functional stakeholders to translate complex business requirements into intuitive, research-driven digital products.

Lead UI/UX Designer
People Tech Group Inc. • Hyderabad

Sep 2025 - Dec 2025

- Led design for large-scale platforms including a bike taxi super app, multi-role admin dashboards, and public-facing websites.
- Defined visual standards, component libraries, and interaction patterns across multiple concurrent product lines.
- Managed government and enterprise website redesign projects, improving accessibility and digital service delivery.
- Conducted design reviews and approvals before engineering handoff; mentored junior designers to elevate team delivery quality.

Key Projects: Thinxuper App, Bike Taxi Mobile App, Rider App, Admin Dashboards, Government Website Redesign, Inertia Website

UI/UX Designer
People Tech Group Inc. • Hyderabad

May 2023 - Aug 2025

- Designed operational dashboards for rental management, revenue sharing, and last-mile delivery services with real-time data visualization and role-based access flows.
- Developed end-to-end UI/UX for Bike HMI, Car HMI, and Tork HMI systems - covering navigation, speed/battery indicators, alerts, and adaptive interfaces under varied driving conditions.
- Created automotive human-machine interfaces (HMI) for embedded and mobile platforms, collaborating closely with hardware and firmware teams.
- Built wireframes, clickable prototypes, and usability testing plans; conducted iterative testing to refine user flows before development.

Key Projects: Rental Admin Dashboard, Revenue Sharing Dashboard, Delivery Services Dashboard, Bike HMI, Car HMI, Tork HMI

UI/UX Designer

Sep 2022 - May 2023

iPrism Technologies • Hyderabad

- Designed mobile apps and admin panels spanning food delivery, security, real estate, and SaaS consultancy - serving customer, admin, and staff user roles.
- Improved navigation architecture and task completion flows through user journey mapping and iterative prototype testing.
- Delivered high-fidelity prototypes and design specs for client approvals, reducing revision cycles by aligning early on design direction.

Key Projects: Yep Earn, Kavach App, King's Dhaba, Magicbroker, Redbucket Biryani, Neo Platform, Delivery Applications

Graphic Designer Intern

Oye Happy • Hyderabad

Nov 2021 - Feb 2022

- Designed digital creatives, banners, and social media assets supporting marketing campaigns; built strong foundations in typography, layout, and visual hierarchy.

EDUCATION

Bachelor of Technology - Computer Science

Vignana Bharathi Institute of Technology (JNTU Hyderabad)

2017 - 2021

Intermediate (MPC)

Narayana Junior College

2015 - 2017

SSC (10th Grade)

St. Francis De Sales High School

2015

CERTIFICATIONS

- UI/UX Design Course - Design Boat UI/UX School
- Psychology-Driven Web Design - Udemy
- Digital Skills: User Experience - Future Learn (Accenture)
- Digital Skills: Mobile - Future Learn (Accenture)
